

# ALGORITHM

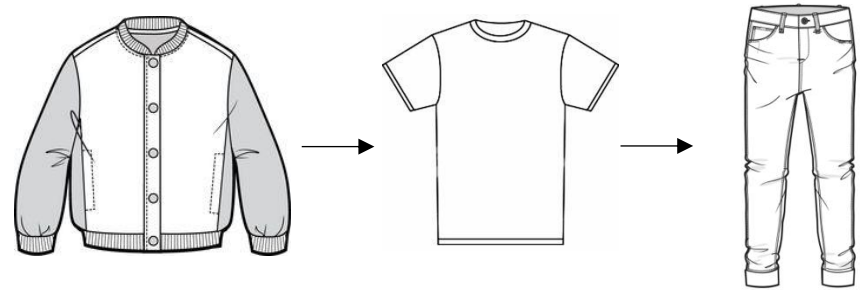

A list of steps to finish a task

Example: Getting dressed for school in the morning

GOOD Algorithm

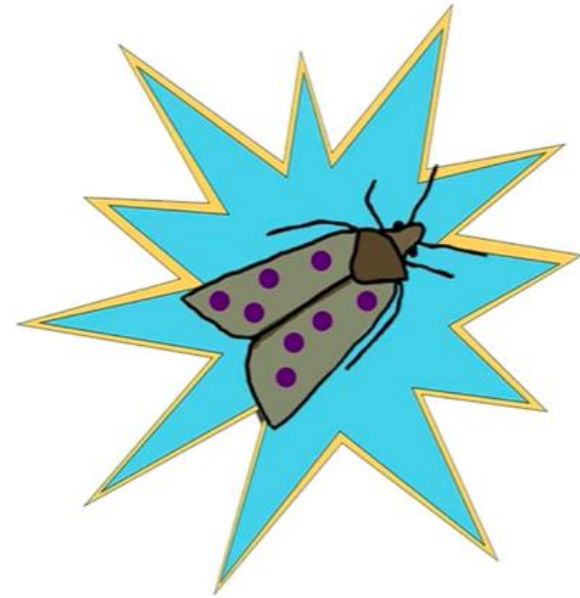

BAD Algorithm

# BUG

Something that is going wrong  
in a program

# DEBUGGING

Finding and fixing problems in  
an algorithm or program

# FRUSTRATION

Feeling annoyed or angry because something is not the way you want it

# PERSISTENCE

Not giving up when you're frustrated

# PAIR PROGRAMMING

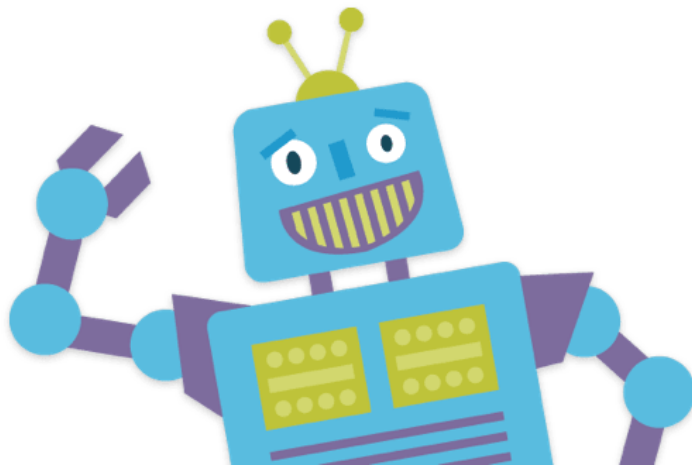

Two students use one computer to write  
a program together

# ROBOT

A machine that works under the control  
of a computer

# AUTONOMOUS

Not controlled by people

# PSEUDOCODE

An algorithm that is written for humans,  
not machines, to read
