ALGORITHM
A list of steps to finish a task

Example: Getting dressed for school in the morning

GOOD Algorithm

BAD Algorithm

https://viterbipk12.usc.edu/bots/
BUG
Something that is going wrong in a program

https://viterbipk12.usc.edu/bots/
DEBUGGING

Finding and fixing problems in an algorithm or program

https://viterbipk12.usc.edu/bots/
FRUSTRATION

Feeling annoyed or angry because something is not the way you want it

https://viterbipk12.usc.edu/bots/
PERSISTENCE

Not giving up when you’re frustrated

https://viterbipk12.usc.edu/bots/
PAIR PROGRAMMING

Two students use one computer to write a program together

https://viterbipk12.usc.edu/bots/
ROBOT
A machine that works under the control of a computer

https://viterbipk12.usc.edu/bots/
AUTONOMOUS
Performing tasks independently

display.show(Image.HAPPY)

https://viterbipk12.usc.edu/bots/
PSEUDOCODE

An algorithm that is written for humans, not machines, to read
