

Summer Engineering Camp July 15 to July 26, 2019

Do you like science? Do you like math? Do you want to build a rocket? Do you want to learn about different engineering fields?

Student Eligibility:

- Currently enrolled in the 5th, 6th or 7th grade
- Have at least a B average in science and math classes
- Must attend both weeks of camp
- Priority will be given to active MESA or Viterbi STEM School Partner students

During the two-week camp, students will explore aerospace, electrical, civil and mechanical engineering with hands-on activities such as rockets, circuits, bridges, and robots. Students will also explore computer science by learning to code and write apps.

Depending on funding, the cost of this two-week camp is \$750. However, **all low-income students accepted into the camp will receive a FULL SCHOLARSHIP**; this will be based on participation in the free or reduced school lunch program.

The camp runs from 8:00 a.m. to 4:00 p.m. Monday to Friday each week of the camp. Lunch will be provided each day of the camp. Selected participants will be responsible for own transportation to and from the USC campus daily.

More information, the online application, and forms can be found at:

<https://viterbipk12.usc.edu/camp>

In addition to completing the online application, the *School Records Request Form* must be submitted to your school and the *Teacher Recommendation Form* given to your current math or science teacher. **All application materials must be received by May 1.** Incomplete applications will NOT be considered. It is the responsibility of the student to ensure that all application materials are received by the deadline.
